

AMENDMENTS TO THE SPECIFICATION

Please replace Table 5 which appears on page 31 of the application with the revised Table 5 as indicated on the following page. Please note that the replacement Table 5 is the Table 5 as was originally filed in the parent application, Application Ser. No. 09/403,161, of this divisional application. Table 5 is being replaced with the original table from the parent application to restore the halftone shading (i.e., hatches) which had been included in the alternating columns of Table 5 as it originally appeared in the parent application (but was inadvertently omitted from the table as filed in the present application).

Replacement Table 5:

	Pilot symbol patterns															
	256, 512, 1024 kbps dedicated physical channel								16 kbps common control physical channel				Others			
Pilot symbol number	0	1	2	3	4	5	6	7	0	1	2	3	0	1	2	3
